or AAPC Continuing Education Units.

Register today at PlasticSurgery.org/CodingWorkshop

THE ASPS PLASTIC SURGERY CODING WORKSHOPS

offer a comprehensive learning program designed by the American Society of Plastic Surgeons® (ASPS®) to improve the profitability of your practice.

PEER-REVIEWED CODING STANDARDS

Coding Workshops combine the knowledge of our member surgeons, medical directors, veteran professional coders and the ASPS Coding and Payment Policy Committee. This uniquely interactive, comprehensive course focuses on the broad issues of practice management and reimbursement and delves into case-based instruction of the new Coding standards.

REGULATORY REPRESENTATION FOR ACCURATE AND ETHICAL CODING

The American Society of Plastic Surgeons has both staff and physician representation at AMA meetings wherein coding policy is created and updated, allowing ASPS to communicate the Society's position to regulatory bodies.

BUILDING UPON OUR 85-YEAR HISTORY OF THE SPECIALTY

ASPS is the largest plastic surgery specialty organization in the world. It is a society created by plastic surgeons for plastic surgeons with an emphasis on advancing the quality of care provided to patients. Our intention is to promote high standards of training, ethics, education, and research to practicing surgeons and their staff.

TOPICS COVERED IN THE WORKSHOPS

- Breast reconstruction — skin replacement surgery, including skin substitutes and biologic implants
- Lesions, lumps, bumps, and flaps
- Adjacent tissue transfers
- Traumatic wound care, repair and debridement
- Burn care
- Chronic wound care and pressure ulcers
- Reconstructive vs. cosmetic surgery — body contouring, nasal procedures, etc.
- Hand surgery
- Microsurgery and use of the operating microscope
- Craniofacial services and facial fractures
- Use of modifiers — including changes to modifier 59 reporting
- Evaluation and Management coding review
- MACRA, MIPS and APMs

INTENDED AUDIENCE

This accredited educational activity is designed specifically for plastic surgeons and their office staff teams, including office administrators, practice managers, billing companies, and billing/coding specialists.

LEARNING OBJECTIVES

Upon completion of this activity, participants should be able to:

- Identify CPT coding concepts specific to breast reconstruction, skin lesion removal, flaps and grafts, skin substitutes, lacerations, and wound debridement procedures.
- Describe the changes to the Medicare Quality Payment Program and the steps necessary to improve claims processing, payment, and revenue generation
- Refine necessary steps to successfully report CPT and ICD-10-CM codes
- Accurately code Plastic Surgery case examples, using CPT and ICD-10 coding schematics

Accreditation

The American Society of Plastic Surgeons® (ASPS®) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation

The American Society of Plastic Surgeons designates this live activity for a maximum of **12.5 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This activity has prior approval of the American Academy of Professional Coders for 12.5 Continuing Education Units. Granting of this approval in no way constitutes endorsement by the Academy of the program, content or the program sponsor.

Disclosure Policy

The American Society of Plastic Surgeons (ASPS) requires all instructors, planners, reviewers, managers, and other individuals in a position to control or influence the content of an activity to disclose all relevant financial relationships or affiliations. All identified conflicts of interest must be resolved and the educational content thoroughly vetted by ASPS for fair balance, scientific objectivity, and appropriateness of patient care recommendations. ASPS also requires faculty/authors to disclose when off-label/unapproved uses of product are discussed in a CME activity or included in related materials.

ABMS Core Competencies

The following ABMS core competencies will be addressed:

- Professionalism
- Systems-Based Practice

PROGRAM SCHEDULE

WHY SHOULD YOU ATTEND?

- Learn the steps necessary to participate in the new Medicare quality programs
- Reference manual, interactive coding case examples, skills assessments and support
- Panel-led discussion of complex coding questions
- Opportunity to query members of both the ASPS Coding and Payment Policy Committee and the AMA's RUC Committee

ASPS PLASTIC SURGERY
CODING
WORKSHOP 2017

NEW

APRIL 8, 2017
ASPS Executive Office
Arlington Heights, IL
8:00 a.m. – 5:00 p.m.

INTRODUCING: THE ASPS ESSENTIALS

Are you a resident or new to the coding arena? Let ASPS introduce to you the basics of plastic surgery coding and billing, including terminology, application and common pitfalls. This new one-day workshop is a unique hands-on opportunity for novice coders to identify the appropriate procedural codes based on the available documentation and gain an understanding of the claims submission process.

Upon completion of this activity, participants should be able to:

- Discuss and implement the basic principles of plastic surgery coding and billing

Accreditation

The American Society of Plastic Surgeons® (ASPS®) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Designation

The American Society of Plastic Surgeons designates this live activity for a maximum of **7.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Join us on Friday evening, April 7, for a Coding Workshop Welcome Reception from 6:30 – 7:30 p.m. Relax and mingle with other workshop registrants and our faculty!*
